FUSE 2020 AWARDS PROGRAM - CALL FOR ENTRIES

The Nebraska/Dakotas Chapter of the American Society of Landscape Architects, on behalf of the Central States Conference Awards Committee, is pleased to issue this formal Call for Entries for the FUSE 2021 ASLA Central States Awards Program. Winners will be honored at a during a virtual ceremony held during the 2021 Central States Conference May 12 - 14th, 2021.

Participation in the awards program will help broaden professional boundaries, increase public awareness of the role of landscape architects, raise the standards of the discipline and bring recognition to organizations and individuals who demonstrate superior skill in the practice and/or study of landscape architecture.

NOMINATION CATEGORIES

Professionals and Students may submit in the following categories: Design (Built), Design (Unbuilt), Planning and Analysis, Research, Communication, and Residential (Built). All entries will be automatically submitted for our newest award – The People’s Choice. Awards Program attendees will vote for the People’s Choice prior to the event, and an awards certificate will be presented during the Awards Program.

PRESENTATION OF AWARDS

Winners will be honored at a ceremony held during the conference **May 12th -14th, 2021**. Awards will be presented during a virtual ceremony.

SUBMISSION CATEGORY CRITERIA

The discipline of landscape architecture encompasses many diverse categories. Some projects may seem qualified for more than one category; however, each project may be submitted for one category only. The jury reserves the right to change the category of an entry during the judging process.

Choose one of the following categories to submit your entry:

**CATEGORY I OR CATEGORY I-S (student): DESIGN (BUILT)**
Categories I and I-S recognize the following:

Construction site-specific works of landscape architectural design (including urban design). For large incremental projects, **at least the first stage must be completed** to be eligible for an award.

Design entries should exhibit a relationship to planning and a framework for larger than the immediate site.

Typical entries in this category may include: communities and housing; urban design; streets and public spaces; parks and recreational facilities; residences and gardens; commercial facilities; resorts; institutions; historic preservation and restoration; reclamation and conservation; landscape art; interior landscapes.

Main criteria for judging Design (Built) are the following:
1. Quality of design
2. Functionalism
3. Relationship to context
4. Environmental responsibility
5. Relevance to the profession, the public and the environment

**CATEGORY II OR CATEGORY II-S (student): DESIGN (UNBUILT)**

Categories II and II-S recognize the following:

Unrealized works of landscape architectural design (including urban design).

Design entries should exhibit a relationship to planning and a framework for an area larger than the immediate site.

Typical entries in this category may include: communities and housing; urban design; streets and public spaces; parks and recreational facilities; residences and gardens; commercial facilities; resorts; institutions; historic preservation and restoration; reclamation and conservation; landscape art; interior landscapes.

Main criteria for judging Design (Unbuilt) are the following:
1. Quality of design
2. Functionalism
3. Relationship to context
4. Environmental responsibility
5. Relevance to the profession, the public and the environment

**CATEGORY III OR CATEGORY III-S (student): PLANNING & ANALYSIS**

Categories III and III-S recognize the following:

The wide variety of professional activities that lead to, guide or evaluate landscape architectural design.
Typical entries in this category may include: general development, regional, transportation, recreation, or town plans; urban planning, government policies or programs; legislation or regulations; landscape analysis such as environmental assessments and natural/visual/resource inventories; natural resource protection, conservation, restoration, and/or reclamation plans.

Main criteria for judging Planning & Analysis are the following:

1. Quality of planning & analysis
2. Functionalism
3. Relationship to context
4. Environmental responsibility
5. Effective use, presentation or programming of landscape architectural techniques
6. Opportunities for landscape architecture to have a significant impact on the environment or environmental decision making
7. Overall relevance to landscape architecture, the public and the environment

Planning & Analysis submittals should include a copy of the planning document for reference. A PowerPoint presentation containing slides 1-3 as described on Page 11 is required for these submittals. Only the PRINTED DOCUMENT will be accepted via postal mail; all other components of the submission MUST BE SUBMITTED DIGITALLY. Include reference to any postal mailed material on the ENTRY FORM. No documents will be returned.

CATEGORY IV OR CATEGORY IV-S (student): RESEARCH

Categories IV and IV-S recognize the following:

Work of rigor in historical, social and physical research that gives evidence of examination of a problem using accepted methods and arriving at supported and original findings or solutions of value to the profession.

Entries in this category should show the use of directed inquiry comprising the following:

1. Problem Statement: Identification of problem to be researched
2. Issues: Statements identifying possible relationships to be investigated
3. Procedure: Method of inquiry used
4. Results: Report of results of the research, which may include an analysis (statistical or other)
5. Conclusions: Researcher’s finding concerning significance of the results, their comparability with past research, their applicability to landscape architecture and the need for new or further research

Main criteria for judging Research are the following:

1. The clarity and adequacy of the five steps
2. The work’s overall significance and relevance to the profession
3. Quality of presentation

If the work being submitted for this category is a printed document, a printed version of that document may be submitted IN ADDITION to the PowerPoint Presentation and Project Narrative. Only the PRINTED
DOCUMENT will be accepted via postal mail; all other components of the submission MUST BE SUBMITTED DIGITALLY. Include reference to any postal mailed material on the ENTRY FORM. No documents will be returned.

CATEGORY V OR CATEGORY V-S (student): COMMUNICATION

Categories V and V-S recognize the following:

Design achievements in communicating landscape architectural information, technology, theory or practice to those within or outside the profession.

This category includes published or written documents, multimedia or electronic communications.

Typical entries in this category include: presentations on landscape architectural history, art or technology; educational material intended for the non-technical consumer; material that increases awareness of landscape architectural design, environmental or conservation issues; private or public marketing materials.

Main criteria for judging Communication are the following:

1. Quality of content and presentation
2. Usefulness to the intended reader or viewer
3. Overall significance to the profession, public or environment

CATEGORY V OR CATEGORY V-S (student):

If the work being submitted for this category is a printed document, a printed version of that document may be submitted IN ADDITION to the PowerPoint.

Presentation and Project Narrative. Only the PRINTED DOCUMENT will be accepted via postal mail; all other components of the submission MUST BE SUBMITTED DIGITALLY. Include reference to any postal mailed material on the ENTRY FORM. No documents will be returned.

CATEGORY VI OR CATEGORY VI-S (student): RESIDENTIAL (BUILT)

Category VI and VI-S recognize the following:

Constructed works of residential landscape architectural design; incorporating site, home, garden, and infrastructure as well as implied due diligence and alignment with requirements typical to that of single family or moderate multifamily homes.

Design entries should exhibit mastery of methods and materials as well as aspects of innovation (sustainability, architectural elements, lighting design, other) and quality of life relevant to the scale of residence designed for.

Typical entries in this category may include: estates, homes of all scales, condominium living and urban living in which residence is owned and not leased in context, multigenerational dwelling or multifamily
condominium/ townhome, modular or “small home” designs such as those featured in Dwell magazine, and other spaces that are clearly utilized as a residence and owned and/or occupied by resident for the purpose as living space.

Main criteria for judging Design (Built) are the following:

1. Quality of design
2. Functionalism
3. Relationship to context
5. Innovation
6. Mastery of materials and methods

PEOPLE’S CHOICE AWARD

All project submissions will have a project summary board displayed online and will be voted on by attendees. Votes will be tallied before the conference, and the winning project will receive a People’s Choice Award certificate at the Awards Celebration.

JURY

All submittals are required to be prepared in a presentation using the Microsoft PowerPoint Template. The presentations must be saved into a PDF file and submitted via Basecamp (See SUBMISSION PROCEDURES FOR DETAILS)

Maximum number of slides: 20 total

Each entry must use the PowerPoint template specific to the award category.

Remove authorship and/or all reference to the firm or individual’s name from the properties of the PowerPoint presentation.

○ SLIDE # 1

On slide # 1 of the presentation, clearly state and summarize the following:

A. Project name and location
B. Project purpose: list of requirements / scope / philosophy / intent

○ SLIDE # 2
